

### **Tuberculosis Testing Policy**

Students who meet one or more of the following criteria must be tested.

- Persons who have a health or medical condition that suppresses the immune system
- Persons who have known exposure to someone with active tuberculosis disease
- Persons currently holding a visa from U.S. Immigration services
- U.S. citizens currently or previously residing outside the U.S.
- Employee or volunteer in a health care setting.

### **Screening Guidelines:**

- TB testing should be done within the 6 months prior to entrance or immediately upon entrance to OBU
- Only U.S. test results will be accepted.
- A history of BCG vaccination does not exempt you from testing requirements
- Persons with a previously positive test should submit medical records showing chest x-ray results as well as treatment and outcome
